## OTHER IMPORTANT INFORMATION

### TOUR GUIDE VS. TOUR LEADER

#### Tour Guide:

Often locals with intimate knowledge of an area, its culture, and history. Their role entails providing commentary, routing the tour, and seeing that people have a good time. They are a licensed, qualified expert who supplies specific information on history, art, architecture and culture of the city/village/attraction in which he or she is guiding the tour.

The guide meets the group at the required place and leaves the group at the end of the tour, they do not travel with the group.

#### Tour Leader:

An experienced person tasked with ensuring the smooth operation of tours, as well as providing practical support to passengers throughout the whole trip. Their role primarily includes assisting with accommodation, transportation between locations, and communication with tour guides in each stop. A tour leader may provide general guidance around a city or village, and offer information on the place visited on the bus, however they are not required to have specific knowledge on art, architecture, or history. They are not allowed to provide a guided tour or commentary of a city/village/attraction once there and if caught doing so, can be fined.

*Please note: Tour leaders/guides are not a standard inclusion in all travel offers. Tour leaders/guides will only be made available when particularly required to enhance the experience of the destination featured.*

### CLIMATE & AVERAGE TEMPERATURES

#### Italy:

The weather in Italy heats up in May with temperatures in the low to mid 20's, with the peak of summer in July/August where temps can reach in the high 20's. Daylight hours are long and sunny and there is a wonderful energy and life in the streets this time of the year!

#### Greek Islands:

The best time to visit the Greek Islands begins in May, when the mean temperature is 21°C degrees and rainfall is minimal, this continues through to October where average temperatures will range from 21-29°C. Days are sunny and clear!

#### Croatia:

May is when temperatures really begin to climb and the summer season truly begins. The town and ports are filling up with tourists, restaurants and bars are alive, museums open and extend their hours and the weather triumphs it all by warming up considerably. Average temperatures reach a very pleasant high of around 23°C and reach a low of a very manageable 16°C.
